1. *What is homosexuality?*
2. *How can we know if the practice of homosexuality is right or wrong?*
3. *What does the Bible explicitly teach about homosexuality?*
4. *Is it true that all of the times homosexuality is referenced in the Bible it is bundled with false worship, rape, prostitution, or abuses, and that this combination was the problem/sin before God?*
5. *Does committing a homosexual act automatically mean one is going to hell?*
6. *Are homosexual acts worse than other sins in the Bible?*
7. *How do you explain marriage ceremonies in which two persons of the same sex are united by an officiating clergyman or justice of the peace?*
8. *Why should two people who sincerely love each other not be allowed to get married just because they are of the same gender?*
9. *Is homosexuality genetic? If it is genetic or "natural" does that make it morally okay?*
10. *Are there contributing factors to homosexuality for which a homosexual might not be responsible?*
11. *How should Christians treat people in same sex relationships?*
12. *How can we help Christians who get involved in the practice of homosexuality? Or who become Christians and have had these kinds of experiences? Or have same sex attraction?*
